DETAILED ACTION

Claim Objections

Claims 16 and 42-47 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 12 and 41 specify that the means for controlling the pumps comprises a motor, a cam, and a means for linking the pumps. Claims 16, 42, and 43 do not further limit the means for controlling, rather they expand the possible choices of pumps which is improper.

The examiner attempted to contact applicant's representative several times in an effort to amend the claims in order to overcome the objections, however was unsuccessful.

Allowable Subject Matter

Claims 12-15, 17-32, 34-41, 48-58 are allowable over the prior art of record.

Claims 16, 42-47 would be allowable if rewritten to overcome the objections set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
